

VertiKlean® Max™

Disposable polyester and foam mop head

VertiKlean® MAX™ was designed for applying disinfectants to both horizontal and vertical surfaces, and is ideal for general cleaning of ceilings, walls and floors in the most critical environments. This durable, lightweight mop features a single layer hydrophilic polyurethane foam laminated to polyester microfiber fabric, backed by a semi-rigid thermoformed plate, which easily snaps onto a standard VertiKlean mop head frame.

VertiKlean MAX has a slim profile for cleaning in confined spaces. New, improved ribbed microfiber material smoothly glides over floors and textured surfaces and provides superior contamination removal. The pivoting mop head frame makes it easy to clean around door and window frames as well as light fixtures, and heavy equipment.

Available in three lengths to meet your cleaning needs, the smallest VertiKlean MAX is appropriate for cleaning tasks in confined spaces, such as cleaning and disinfecting fume hoods, isolators and mini environments. The VertiKlean MAX Medium and Large are ideal for cleaning and disinfecting broad surfaces in cleanrooms and controlled environments. VertiKlean MAX is available in the Medium size with a sealed edge.

For superior particle pick up and contamination removal, as well as maximum sorbency, choose VertiKlean MAX for cleaning and disinfecting.

FEATURES & BENEFITS

Mop Head

Hydrophilic polyurethane foam and knitted polyester mop head retains liquids better than competitive products. When mop head is applied to a surface, the liquid is evenly released without dripping.

Laser cutting seals the edges of the foam and polyester, reducing the chance of fiber and particle contamination.

Excellent chemical and abrasion resistance. Lasts longer than traditional sponge mops.

VertiKlean MAX enables the uniform application of disinfectants and cleaning solutions. Compatible with a wide range of solutions.

Available Gamma irradiated. Validated sterile to a Sterility Assurance Level of 10^{-6} per AAMI ISO11137:2006 Guidelines.

NOTE: Autoclaving of VertiKlean MAX is not recommended, due to the thermoformed plastic backplate.

Available in three sizes for a wide range of cleaning applications

VertiKlean MAX Regular	8 x 4 x 1" (21 x 11 x 2cm)
VertiKlean MAX Medium	13 x 4 x 1" (32 x 11 x 2cm)
VertiKlean MAX Large	15 x 4 x 1" (38 x 11 x 2cm)

Mop Head Frames and Handles

The disposable VertiKlean MAX mop head installs easily onto the appropriate sized VertiKlean® mop head frames and QuickConnect™ handles.

QuickConnect™ stainless steel and anodized aluminum handles are available in several lengths for a variety of cleaning tasks.

Single, double and triple bucket systems are available to fit VertiKlean MAX mops. Choose from stainless steel or autoclavable polypropylene bucket systems.

All hardware used with VertiKlean MAX is autoclavable unless otherwise noted.

Part No.	Description	Quantity
VertiKlean MAX Mop Heads		
VKMX0125	VertiKlean MAX Regular mop head, ribbed microfiber face, 8 x 4 x 1" (21 x 11 x 2cm)	4/bag; 12 bags/case
VKMX0175	VertiKlean MAX Regular mop head, ribbed microfiber face, 8 x 4 x 1" (21 x 11 x 2cm), sterile	1/bag; 48 bags/case
VKMX0225	VertiKlean MAX Medium mop head, ribbed microfiber face, 13 x 14 x 1" (32 x 11 x 2cm)	4/bag; 7 bags/case
VKMX0275	VertiKlean MAX Medium mop head, ribbed microfiber face, 13 x 14 x 1" (32 x 11 x 2cm), sterile	1/bag; 28 bags/case
VKMX0325	VertiKlean MAX Large mop head, ribbed microfiber face, 15 x 4 x 1" (38 x 11 x 2cm)	4/bag; 6 bags/case
VKMX0375	VertiKlean MAX Large mop head, ribbed microfiber face, 15 x 4 x 1" (38 x 11 x 2cm), sterile	1/bag; 24 bags/case
Mop Head Frames and Handles		
2651SS	QuickConnect mop frame, 7.5" (19cm), use w/ VKMX0125/0175	1/each
2652SS	QuickConnect mop frame, 11.5" (29cm), use w/VKMX0225/0275 and VKMX0325/0375	1/each
2652LF	QuickConnect lay flat mop frame, 11.5" (29cm), use w/VKMX0225/0275 and VKMX0325/0375	1/each
2725E	QuickConnect handle, 60" (152.4cm), stainless steel, lightweight, 1 piece	1/each
Bucket Systems and Wringers		
2940P2B	Compact Bucket System, two 3.9 gallon (15L) polypropylene buckets, standard handle and one debris screen	1/case
2940U2B	Compact Bucket System, two 3.9 gallon (15L) polypropylene buckets, utility handle with one 3.9 gallon (15L) bucket and one debris screen	1/case
2940P3B	Compact Bucket System, three 3.9 gallon (15L) polypropylene buckets, standard handle and two debris screens	1/case
2940U3B	Compact Bucket System, three 3.9 gallon (15L) polypropylene buckets, utility handle with two 1.6 gallon (6L) buckets and two debris screens	1/case
2940P3S	Compact Bucket System, three 2.6 gallon (10L) stainless steel buckets, standard handle	1/case
2689	Stainless steel flat wringer for 3.9 gallon (15L) polypropylene buckets	1/case
2756	Stainless steel flat mop downpress wringer for polypropylene and stainless steel systems	1/case

Contec offers many compatible bucket systems and mop handles. Visit our website for details.

NOTES:

- 1) All hardware is autoclavable unless otherwise noted.
- 2) Autoclaving VertiKlean MAX mop heads is not recommended.
