

# Critical Cover® Coverall® Face Shields

## Splash Protection

**Features and Benefits:** When you need total facial splash protection, choose the Coverall® Face Shield. The face shield's wrap-around design provides the wearer with great peripheral vision while acting as a protective shield against non-hazardous liquid splash and light particles in a Lab or Controlled Environment. The Coverall® Face Shield is not ANSI Z87 rated for eye protection. You can wear the lightweight shield comfortably for long periods and it fits easily over prescription glasses or protective eyewear.

A double-sided anti-fog coating reduces the possibility of fogging in high humidity environments. For safe working conditions, the face shield is low distorting and 100% optically clear while a soft polyurethane foam headband securely positions the device on the wearer.

**Available in two styles:** Full face shield and half face shield. Also available with an adjustable Velcro® band, elastic Comfort headband or elastic headband with snaps.

*Anti-fogging*

### Coverall® Full Face Shields

## COVERALL® Full & Half Face Shields Specification Sheet

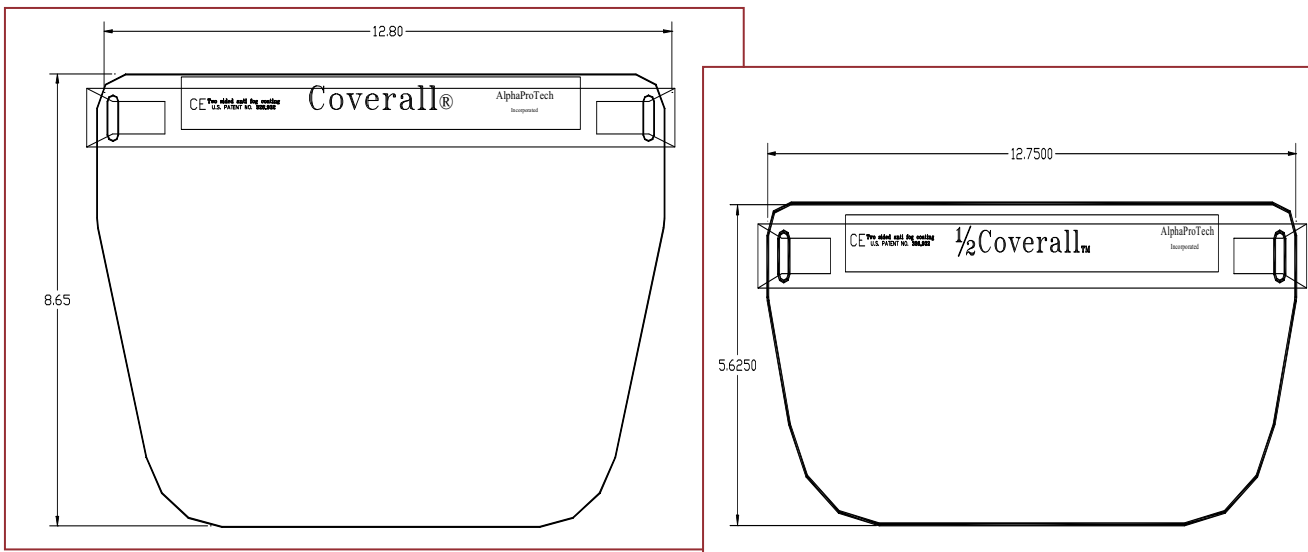

The single-use Coverall® Full & Half Face Shields are designed to protect the user's face. These shields can fit comfortably over glasses. The optically clear shield is 7-mil thick and coated with an anti-fog coating. Vision is distortion free with low glare and full peripheral vision. Polyurethane foam along the top of the shield provides a comfortable cushion to the user's forehead.

### Material List:

- Shield: 7-mil clear polyester film
- Foam: Polyurethane strip
- Headband: **2802, 2803:** 3/4" wide adjustable Velcro band  
**2807, 2808:** 1" wide elastic Comfort band  
**1814 & 1814NB:** 1/2" wide Elastic band

**Packaging:** 25 shields per dispenser box, 4 dispenser boxes per case, 100 shields/case
