

VOC-23C-(Size)

Tech Wear Style Sheet

This ESD coat is an effective Category 3 static shielding ESD garment. The light-weight OFX-100 fabric makes this style one of our most popular garments. Surface resistivity of the fabric is 1×10^5 and the sleeve-to-sleeve resistance of the garment is guaranteed to stay below 3.5×10^7 for 100 washes or 2 years.
