

ICT+ MICROFIBER PAD

Unparalleled Cleaning Excellence for Aseptic Applications

Advanced microfiber technology coupled with our patent-pending touch-free system provides consistent cleanliness and optimal coverage while improving productivity.

Features and Benefits

- Removes 99.9% of particulate residue down to .1 micron in size⁴
- Mechanically removes disinfectant residues and other harmful particulates from the surface
- Optimized surface coverage with minimized carbon footprint
- 100% recyclable pad backer reduces waste (30% of total weight)

Cleanroom Level Recommendation*

ISO

Item	Size	Quantity
IPDB8	8" / 20.3 cm	4 pads/bag, 15 bags/case

Visionary Cleaning System

Saturix is a complete system for critical cleaning featuring innovative carts, mops and wipes backed by 100 years of cleaning experience. With focused product selection, it's easy to find exactly what you need right now.

ICT+ Microfiber Pad

Independently tested by an independent third-party laboratory

Cleanroom Level Recommendation*

ISO 3 4 5 6 7 8

Property	Typical Value
Face Material	100% circular knit polyester microfiber, 290 gsm
Inner Layer Material	100% non-woven polyester, 160 gsm
Backing Material	100% non-woven polyester, 50 gsm
Rigid Backer	High density polyethylene
Dry Weight / Pad	18.6 g
Surface Coverage	50 ft ² / 4.6 m ²
Absorbency	412%
Chemical Resistance	Acids: non-effect, Alkali: non-effect

Notes

- Data shown are typical values and should not be used as product specifications.
- Valid product comparisons may only be obtained through side-by-side testing in the same test facility, under similar conditions. Current and/or comparison data may be available. Please contact an FG Clean Wipes representative for details.
- FG Clean Wipes makes general recommendations on which wipers are suitable for different cleanroom classifications. However, specific applications may affect that recommendation. The final decision should be made by the end user for their particular application.
- Based on third party lab testing.
